

Pitch Extension

Item Code and Description

- a. TB4812-PXT
- b. 12" × 48" Pitch Extension

General Product Description

- a. pitched panel for enlarging TrueDEK Classic and TrueDEK Linear shower bases
- b. cover with decorative tile, stone, or weldable resilient flooring

Physical Characteristics

- a. made of plastic
- b. overall measurements: 12" × 48"
- c. thickness: 1/8" at thin edge and 3/8" at thick edge
- d. one gradient plane
- e. gradient is 2% per foot
- f. color: white
- g. weight: approximately 4 lbs.
- h. made from 100% recyclable materials

Performance Characteristics

- a. install on subfloor in place of tile backer board to extend pitch of shower base
- b. compatible with TrueDEK Classic and TrueDEK Linear shower bases (not compatible with ShuffleDEK shower bases)
- c. cut and drill as needed with standard power tools
- d. cut to any length or width needed
- e. use as many pitch extensions as needed to extend pitch of shower base on one, two, three, or four sides of base; pitch extensions must abutt shower base (they cannot be used to extend the size of the base more than 12" per side)
- f. non-structural; must be installed on structurally sound subfloor
- g. use Tank/10 polyurethane construction adhesive or modified thinset mortar, along with screws, to secure each extension panel to the subfloor
- h. drill countersunk pilot holes 6" to 8" apart for screws

Compliance

1. NA

Other Information

- a. 10 year limited lifetime warranty
